

List of Publications by Milton Dishal on filter theory & design

Exact Design and Analysis of Double- and Triple-Tuned Band-Pass Amplifiers

Proceedings of the IRE

Volume: 35 , Issue: 6

Digital Object Identifier: 10.1109/JRPROC.1947.226261

Publication Year: 1947 , Page(s): 606 - 626

Design of Dissipative Band-Pass Filters Producing Desired Exact Amplitude-Frequency Characteristics

Proceedings of the IRE

Volume: 37 , Issue: 9

Digital Object Identifier: 10.1109/JRPROC.1949.230947

Publication Year: 1949 , Page(s): 1050 - 1069

Alignment and Adjustment of Synchronously Tuned Multiple-Resonant-Circuit Filters

Proceedings of the IRE

Volume: 39 , Issue: 11

Digital Object Identifier: 10.1109/JRPROC.1951.273611

Publication Year: 1951 , Page(s): 1448 - 1455

Concerning the minimum number of resonators and the minimum unloaded Q needed in a filter

Transactions of the IRE Professional Group on Vehicular Communications

Volume: 3 , Issue: 1

Digital Object Identifier: 10.1109/PGVC.1953.32857

Publication Year: 1953 , Page(s): 85 - 117

Side Band Crystal Filters

13th Annual Symposium on Frequency Control

Digital Object Identifier: 10.1109/FREQ.1959.199395

Publication Year: 1959 , Page(s): 404

A Simple Design Procedure for Small Percentage Bandwidth Round-Rod Interdigital Filters (Correspondence)

Microwave Theory and Techniques, IEEE Transactions on

Volume: 13 , Issue: 5

Digital Object Identifier: 10.1109/TMTT.1965.1126066

Publication Year: 1965 , Page(s): 696 - 698

Modern network theory design of single-sideband crystal ladder filters

Proceedings of the IEEE

Volume: 53 , Issue: 9

Digital Object Identifier: 10.1109/PROC.1965.4164

Publication Year: 1965 , Page(s): 1205 - 1216
